

Overview

For more than a decade, Tribal Tech has been a trusted partner in collecting and analyzing both quantitative and qualitative data. Our team aims to help stakeholders make informed management decisions to improve policy trajectories and promote efficiency. Tribal Tech has vast experience in primary/secondary research, organization, and policy, program, and impact evaluation.

As part of our federal grants process, Tribal Tech supports critical monitoring and evaluation functions. Our teams have experience using statistical and modeling packages to successfully lead both outcome and program evaluations. We grasp the growing reliance on data to make evidence-based decisions and help our clients evolve accordingly.

Experience

Our work has been instrumental at the U.S. Department of Education; where Tribal Tech's research and evaluation expertise is relied upon to measure the current state of Indian education and assist with long-term planning. Our consulting services continue to empower the Department, facilitating its policy management and ongoing dialogue with Congress.

At the U.S. Department of Health and Human Services (HHS), Tribal Tech collects, manages and analyzes data which measures the effectiveness of training and technical assistance as part of the Government Performance and Results Act. Our evaluation has informed department leadership, which has led to improvements in services benefiting Indian country.

At the Office of Personnel Management, Tribal Tech collects, aggregates and reports on donations and volunteer hours; as well as conducts focus groups to collect data on effectiveness of the campaign.

EVALUATION AND PLANNING

Clients

We have successfully managed these services for numerous clients, including:

- ◇ **U.S. Department of Health and Human Services (HHS)**
